PROFILE SUMMARY:

Experienced lead developer, proficient in PHP environments, adept at developing digital solutions, and managing teams. I am an expert in creating role-based membership systems and user-friendly applications. Exceptional expertise in WordPress, WooCommerce, AWS, and development frameworks ensures project success. I'm seeking a challenging role where I can leverage my extensive experience to help an organisation grow.

PROFESSIONAL EXPERIENCE:

Lead Developer | May 2023 – Present

Narrowcloud Solution Sdn. Bhd.

- Track and monitor asset performance to optimise resource allocation.
- Oversee IT support and troubleshooting for production applications.
- Develop, test, and implement the entire SDLC lifecycle.
- Ensure compliance with ISO standard operating procedures.
- Provide comprehensive functional application support to domestic and international teams.
- Maintain email accounts, domain configurations, and SSL certificates; ensure network security.
- Collaborate with cross-functional teams to analyse and resolve application issues, document complex issues, and escalate when needed.
- Administer IT projects, resources, and vendor management, ensuring effective communication and operational efficiency.
- Utilise performance monitoring tools, AWS infrastructure, Microsoft Office 365, and WordPress solutions.
- Interact with key stakeholders, vendors, and end users.
- Manage a diverse team of software engineers, designers, and copywriters, overseeing project planning, task management, mentoring, and motivation.
- Allocate 40% of time to operations and 60% to hands-on coding to maintain high standards of code quality.

PHP Developer (Remote) | Dec 2022 – Jan 2023

Markets Group

- Responded to integration requests and ensured application functionality.
- Enhanced web application performance by finalising backend features and conducting rigorous testing.
- Improved application performance with updates and modifications based on user feedback.
- Provided critical insights for strategic decision-making to the business development team.
